

*Online Training! February 4 to 28, 2011*

## **Recognizing and Managing Countertransference in Problem Gambling Clinical Work**

### **Earn 12 CEUs**

LADC I, LADC II, LADC Asst., NAADAC,  
CAS, RN/LPN, NASW, NBCC, NCGC, CGAS

This advanced-level online course is an intensive study of countertransference and how it impacts clinical judgment and treatment. Participants will engage in online discussions after reading relevant scholarly articles, explore familiar clinical concepts in the context of problem gambling and engage in interactive clinical case study reviews with the focus on individuals struggling with disordered gambling.

### **Payment Information**

The cost to participate is \$120. For Massachusetts Department of Public Health, Bureau of Substance Abuse providers the cost is just \$60.

### **Training Faculty:**

*Geoffrey W. Locke, MA, MSW, ABD, CADAC, CAS is an adjunct instructor at Smith College School for Social Work and has a private practice in Amherst, Massachusetts*

“The clinical relationship is a complex and dynamic interplay between two people that stirs up feelings, emotions, and attitudes for both participants. This course will examine common personal feelings and emotional reactions that clinicians who work with gamblers may experience; identify ways to manage these feelings; and ultimately understand how these feelings may impact our attitude toward particular clients and our clinical work in general.”
