#### What is NAPA?

- The National Alzheimer's Project Act (Public Law 111-375) was passed unanimously by both houses of Congress and signed into law by President Obama in January 2011.
- The law will create a national strategic plan to address the rapidly escalating Alzheimer's crisis and will coordinate Alzheimer's disease efforts across the federal government.

#### How can you get involved?

- Attend our input sessions and share your story about how Alzheimer's disease has affected you.
- All information received will be shared with the U.S. Department of Health and Human Services, which is responsible for creating a national strategy to address the crisis and coordinate across government agencies.
