

Join us for a Webinar on November 16

REGISTER NOW

EPA New England invites you to a webinar to learn how to reduce energy use and save money at senior care facilities using ENERGY STAR program tools. As of March 21, 2011, senior care facilities are able to use a new ENERGY STAR rating system to rank the energy use of their facilities. The rating helps to determine opportunities to reduce energy use and determine who is eligible for ENERGY STAR label recognition. Eligible facilities include nursing homes (skilled nursing facilities) and assisted living facilities that have under 50% independent living housing. The webinar will highlight the measurement tool, the ranking system for the sector, benefits of the program, those eligible in New England and how to get started. To find out more, please register and join us on Wednesday, November 16th from 10 to 11:30 a.m.

Title: *ENERGY STAR Webinar: Energy Efficiency and Cost Savings for Senior Care Facilities*

Date: Wednesday, November 16, 2011
